"The strongest oak tree in the forest is not the one that is protected from the storm and hidden from the sun. It's the one that stands in the open where it is compelled to struggle for its existence against the winds and rains and the scorching sun."

--Napoleon Hill

Our Mission:

To be the integrated care provider of choice for the residents of Montcalm County by delivering services and supports that result in better care, better outcomes and better value for those we serve.

Changes and reforms to healthcare continue at a dizzying pace. In Michigan, there are constant threats and demands on our public behavioral health system. Whether it be the intended shifting of public dollars to the for-profit health plans or the hundreds of new regulations and dozens of proposed law changes — each has an impact on our ability to provide needed supports and services to some of our most vulnerable citizens.

Despite the constant change, Montcalm Care Network Board and Staff remain focused on achieving improvements that will result in better care, better outcomes and better value for those we serve. We accept change as the new norm. We accept that we will have to work harder and smarter than ever before. We do so because we owe it to those we serve, as their struggles for choice and inclusion are far greater than our own. We do so because those we serve deserve all that we can provide and more.
