Annual Report

Meeting the needs of our community

Member of the Mid-State Health Network
Financial support received from the Michigan Department of Health and Human Services

As we reflect back on the past year, the work of MCN remains firmly focused on the individuals and families that trust in us and the community partners that count on us. Each day we strive to be an effective and highly collaborative team of staff in moving our organization towards its strategic objectives of providing better care, better outcomes and better value for our community.

That work, as with any effort, is not always easy and not always perfect, but each day we do our best, we seek opportunities to learn, and we continue on. We do so, not because we have to, but because so many depend on us.

Together as a team, and as a community, we give hope for today and tomorrow.

- Tammy J. Warner, Executive Director
