I have read my job description
and understand the essential
functions.

Name: _____

Date: _____

General Summary

Under the supervision of the Integrated Care Nurse Manager, provides nursing and medical support services to person with primary severe, persistent mental illness, developmental disabilities, and/or serious emotional disturbances and co-occurring complex medical conditions. A team approach is utilized to ensure integration between physical and mental health needs with a focus on managing chronic disease. Promoting preventative care and self-management health care strategies is emphasized. Promotes mental health recovery, wellness, and full participation within the community for consumers in a manner where practice is trauma informed, co-occurring capable, person/family centered and integrated with other health care providers.

Essential Functions

1. Reviews health screens for consumers entering treatment, establishes contact with primary care physicians to facilitate coordinated care and provides basic nursing assessments for individuals with who have no access to medical care.
2. Completes nursing evaluations and health services assessments that include medical and other health service needs, nursing needs and assessments of self care skills and other health related special needs for individuals requiring specialty nursing care.
3. Participates as part of an interdisciplinary team in the person/family centered planning process to provide information concerning the medical and other health treatment goals of the consumer.
4. Monitors the implementation of nursing or health plans for each assigned consumer. This includes providing follow-up and monitoring services related to plan goals, objectives, and interventions, completing required assessments and periodic reviews, as needed.
6. Provides service delivery to people with emergency, crisis, and long term dysfunctional behaviors utilizing various modalities of intervention.
7. Provides health education and prevention services to consumers.
8. Provides consultation and training to internal staff related to disease management protocols, health prevention strategies, and other relevant population health topics.

9. Provides health education, prevention, and training to direct care staff, family and caregivers to ensure health and wellbeing of consumers. This includes specific consumer plan information, as well as general health trainings.
10. Acts as a liaison to psychiatrist to ensure consumers have access to medication refills and lab work per physician orders.
11. Evaluates consumers during periods of interaction to determine their stability, medication compliance and general health and well being.
12. Conducts home visits to determine for the purpose of assessing client's needs and to coordinate services with homeowners, families, direct care providers, physicians and other health services.
13. Enhances community understanding and acceptance of mentally ill or developmentally disabled individuals, as well as existing services through community presentations to civic and community agencies, and other interested groups and participation in community collaborative efforts.
11. Participates in the Infection Control effort and provides infection control education and programs for agency staff and consumers as assigned.
12. Provides injections, receives, stores, and disposes of medication in compliance with all agency policies/procedures and accrediting bodies.
13. Completes OBRA nursing assessments in compliance with MCN regulations.
14. Maintains complete and detailed case records consistent with Department of Community Health standards, agency policies and procedures, accreditation, certification requirements and requirements of third-party funding sources.
15. Ensures that clinical documentation regarding clients is kept secure and confidential and maintained consistent with Department of Community Health and the Montcalm Care Network's policies and procedures.
16. Complies with recipient rights reporting requirements established by the Mental Health Code and procedures of the Montcalm Care Network's Board.
17. Provides consultation on health related issues as part of the emergency services system.
18. Must participate in an annual minimum of 16 hours of training relevant to the population served or 24 hours if assigned specifically to the children's population.
19. This position will be knowledgeable about and actively support: 1) culturally competent recovery based practices; 2) person centered planning as a shared decision making process with the individual, who defines his/her life goals, and is assisted in developing a unique path toward those goals; and, 3) a trauma informed culture of safety to aid consumers in the recovery process.
