## Job description

**\*\*\*This position is eligible for a one-time signing bonus up to \$2000\*\*\***

Montcalm Care Network is seeking a growing workforce of bachelor level clinicians to work in an organization that supports professional growth, values team-based interventions and provides trauma-informed care. We serve adults and children with mental illness and developmental disabilities while specializing in models of integrated health and co-occurring treatment. We are currently filling full-time positions. We are the respected leader of behavior health care in our community and actively partner other community providers, law enforcement, schools and primary care. Competitive pay with bachelor level positions reaching \$60,700 and fully licensed master level positions reaching \$69,800.

**Case Manager Positions** currently open. MCN Case Managers provide care to one of three populations- adults with mental illness, children with serious emotional disturbance or adults/children with developmental disabilities. Services are community-based and include assisting with linking, coordinating, psychoeducation and ensuring persons served are able to move toward recovery and community inclusion. Case managers work as part of a team which includes nurses, peer supports, recovery coaches, parent support partners, and paraprofessional assistants. This ensures comprehensive consumer care.

Benefits:

Montcalm Care Network is committed to the wellbeing of our staff and we have exceptional benefits:

- Medical/dental/vision coverage
- Short-term disability
- Generous vacation and sick leave
- Employer provided life insurance
- 457(b) retirement savings with an employer contribution
- Opportunities for employer funded professional development to meet continuing education requirements
- Supervision toward full licensure
- Tuition reimbursement for those seeking higher education
- Free membership to our locally owned gym- Wellness Works!

Requirements

- Bachelors degree in Social Work with limited or full licensure
- Bachelors degree in a human services area with a required 1 year experience serving a mental health population

Job Type: Full-time

Pay: \$60,700.00 - \$69,800.00 per year
